

Welcome to your dental plan

Thank you for choosing the California Direct Compensation dental plan from UnitedHealthcare. We're here to help make your health care experience easier.

Get to know your plan

With this plan, your coverage begins right away. You don't need to meet a deductible. There's no annual limit—which is the maximum amount the plan will pay each year—and the plan doesn't exclude care for dental issues you may have had before enrolling.

Preventive care

As long as you see your primary care dentist, your plan pays for all or most of your preventive dental care, including routine checkups, cleanings and annual oral cancer screenings for adults. You can get 2* cleanings in a 12-month period—1 every 6 months.

Preventive visits are important because your dentist can catch problems earlier, when they may be easier to treat. Good oral health helps protect your teeth and gums and is also linked to good overall health.

Fillings, crowns and more

Your plan also covers other types of dental care, including fillings, crowns and braces. You just need to pay a copay (a set dollar amount) at the time of your appointment. Some plans only cover silver fillings for back teeth. If you choose white fillings, you may have a higher copay.

Extra dental visits when you're pregnant

Increased bacteria levels during pregnancy can lead to tooth decay. Your plan covers extra visits for cleanings and gum treatments when you're pregnant, as recommended by your dentist. Ask your dentist to submit a claim to the address on your ID card. Be sure to include the name of your OB/GYN and your due date.

*Some plans cover more cleanings for an additional copay.

Please see your official dental plan documents for details about your coverage or call the number on your ID card.

Use your dental ID card

Print your ID card anytime at myuhc.com. Your card only lists the name of the person who signed up for the plan, but everyone covered by your plan should use the card. Be sure to bring it with you each time you see the dentist.
